## Advance SC350 Micro Scrubber

Just another small scrubber? Think again. The Advance SC350 micro scrubber proves it's in a class of its own, delivering faster, better and easier scrubbing. Combine these features with the unique, fully-adjustable rotating deck and you are on your way to superior scrubbing performance.

Featuring full battery powered operation with a standard onboard battery charger, the 14 inch disc delivers more scrubbing with minimal downtime and less hassle. Plus, at only 64 dB A, the SC350 is the quietest machine in its class, making daytime cleaning and cleaning of noise-sensitive areas an easy option. With its compact, maneuverable design, the SC350 is ideal for scrubbing in tight corners or under tables and chairs.

Newsletter Date 05/14/12 , Issue 65

Myers Supply is pleased to announce that Jimmy Oliver of Lake Hamilton School District has achieved certification of the following Cleaning Management Institute training courses.

Chemistry of Cleaning  
Above Floor Surfaces  
Hard Floor Surfaces  
Carpeted Floor Surfaces  
Restroom Cleaning

CMI's Custodial Technician Training Program is split into two levels. The first level includes 5 modules, and the Advanced level contains 3 modules. Each module covers a different cleaning subject and each has a corresponding certification exam.

## STEAMBOY T2

Heavy-duty wide coverage sweeper bristles. Sweep up dust and little spills with ease. 8" sweeper cleaning path. Most steam mops and sweepers can handle open floor spaces, but what about tight corners? Steamboy's 180° swivel head allows easy access to all the nooks and crannies. Why spend all of that money on a revolving door of cleaning chemicals? With Steamboy T2, all you use is 100% natural (and free) water. Nothing could be more pure, or simple. The Steamboy T2 comes with two washable microfiber pads. When dirty, just throw them into the wash, and hang dry.

No other steam mop offers more steam sanitizing power than Steamboy. The temperature at the pad is rated up to 248°. Use the carpet steamer attachment to sanitize the surface of carpets and area rugs. The Steamboy T2 is lightweight, has an easy grip handle and conveniently located sweeper and steam activation buttons.

## SPEEDCLEAN WINDOW KIT

SpeedClean is a drip-free indoor window cleaning kit. Easy to use, one step system, ideal for everyday cleaning, as well as polishing of glass and mirrors. Perfect for any user with or without window cleaning experience. Can be used with Unger aluminum poles for safe and quick cleaning of high level windows and skylights.

- Windows dry streak-free.
- No water spills or drips on window sills, frames, carpets and furniture.
- No squeegee required.

### SPEEDCLEAN™ WINDOW KIT

## Kresto Cherry

New Kresto® Cherry empowers you to offer employees superior cleaning, exceptional skin compatibility and unparalleled performance – all with a pleasant fresh fragrance!

Hard working hands don't have to suffer. Protect your greatest business asset – your hands – with the advanced cleaning power of Kresto®. Formulated to effectively clean the most stubborn ground in dirt and grime while keeping skin healthy. The fresh cherry scent eliminates industrial odors on hands leaving them clean and fresh. Tough on dirt, but easy on the hands, Kresto® Cherry is the number one choice of professionals.

## EZ Foam Counter Mount Chrome

EZ Foam Counter Mount features an innovative patented system that refills from ABOVE the counter using self contained sealed refill bags. Simply remove the pump head, insert and turn the bag and let the soap flow into the sealed reservoir.

- No messy refilling, no crawling on the floor - saves time and money
- Self-contained system eliminates the risk of product contamination
- Easy to install or retrofit - no tools necessary

## NCL University Certification Class

National Chemical Laboratories Inc. (NCL) recently held a three-day Distributor Certification Training Program at the company's training center in Philadelphia. Myers Supply is pleased to announce that Jeff Holt, Doug Myers & Larry Beckowitz each received certification upon completion of three day training program.

The participants learned about the broad range of NCL products, with classroom and "hands-on" sessions being conducted for hard surface floors, stone and ceramic tile, as well as NCL's recently introduced Wood Care program. In addition to restroom care/surface disinfection, Green Seal-certified product training and chemical management programs were emphasized.

## Teens Use Hand Sanitizer For A Dangerous High

A growing number of teenagers have turned to guzzling hand sanitizer in a desperate effort to get a buzz. According to reports, six teenagers recently ended up in Southern California emergency rooms with alcohol poisoning after consuming large amounts of the gel.

Doctors warn that although it has only emerged in recent months, the trend is gaining momentum. Sanitizers are inexpensive and accessible, and with distillation instructions available online, teens are taking advantage of the 62 percent ethyl alcohol content and turning a product designed to sanitize hands into a 120-proof drink.

Experts comment that drinking the sanitizer is similar to a shot of hard liquor. Just a few drinks can cause a person's speech to slur and stomach to burn, and make them so drunk that they have to be monitored in the emergency room.

To minimize the threat, experts recommend purchasing foam sanitizers over the gel options. It is reportedly more difficult to extract the alcohol from foam and teens would be less likely to consume it.

## Instant Hand Sanitizer Alcohol Free

**Instant Hand Sanitizer**  
Contains NO ALCOHOL

Foaming Instant Hand Sanitizer is a non-aerosol foaming formula that kills up to 99.9% of most common germs that may cause illness. With no soap or water needed, this Foaming Hand Sanitizer works in as little as 15 seconds to eliminate germs, bacteria, viruses, yeasts and mold while leaving your hands cleaner, healthier, and softer.

Safe to use on children over six months of age, the Foaming Hand Sanitizer contains no alcohol or Triclosan.

**When water is not available... STAY HEALTHY WITH KUTOL INSTANT HAND SANITIZERS**

## PURE Bioscience Partners with Intercon Chemical Company

PURE Bioscience, Inc. (NASDAQ: PURE), creator of the patented silver dihydrogen citrate (SDC) antimicrobial, today announced it has partnered with St. Louis-based Intercon Chemical Company for distribution of the PURE Complete System in conjunction with Intercon's Clearly Better Solutions product line.

The PURE Complete System product line includes PURE Hard Surface disinfectant and food contact surface sanitizer, PURE Multi-Purpose Cleaner Concentrate and PURE Floor Cleaner Concentrate. Jim Epstein, President of Intercon, stated, "Our established network of more than 200 distributors services approximately 250,000 end-use customers and is eager to begin selling the PURE Complete System into a wide variety of markets. PURE Hard Surface combines a new industry standard for efficacy with an impressive safety profile, and PURE's Multi-Purpose and Floor Cleaners incorporate green formulations at very competitive price points."

Epstein continued, "The PURE Complete System is a perfect fit for our Clearly Better Solutions mission of 'providing green solutions which are not just better, but are Clearly Better' than the current technologies. Our goal is to commercialize game-changing and responsible cleaning, sanitation and healthcare products and technologies to fill the growing yet thus far unmet demand for such products in the marketplace."

"The PURE Complete System is also a centerpiece product for our Clearly Better Medical division, and we look forward to introducing the line to our hospital and medical facility distributors," added Division Vice President, Neal Wieselman. Wieselman, formerly of Mediskin Technology and B&G Labs, brings 25 years of medical, hand, skin and wound care product development experience as well as FDA aerosol product contract packaging expertise to the Clearly Better team.

Epstein concluded, "We have marketing programs underway to showcase PURE Hard Surface and the PURE Complete System at several upcoming national tradeshows and industry meetings, including next week's National Restaurant Association Show in Chicago. We will also feature PURE at APIC 2012 in San Antonio in June and the October HIDA Conference in Chicago. As we do for all of our products, we've prepared full technical training and support programs for distributors as they market the PURE line of products. We're excited to hit the ground running."

APIC 2012 is the Annual Conference of the Association for Professionals in Infection Control and Epidemiology. The HIDA Streamlining Healthcare Conference is the largest annual event of the Health Industry Distributors Association.

Michael L. Krall, President and CEO of PURE Bioscience, said, "Intercon's reputation for providing premium products and solutions to a variety of markets positions it as a strong partner for the PURE Complete System. We appreciate Intercon's systematic approach to supporting product launches and establishing routine implementation of new technologies. We look forward to building business together."

SDC is non-toxic, non-caustic, colorless, odorless, tasteless and does not produce toxic fumes. While SDC is highly toxic to bacteria, fungus and virus it is non-toxic to humans and animals. Based on the EPA toxicity categorization of antimicrobial products that ranges from Category I (high toxicity) down to Category IV, at use dilutions, SDC is rated in the lowest toxicity category, IV, while traditional disinfectants fall into Categories I and II.
